

Idan Leitman

January 13, 1990 | Tel Aviv | 052-8784444 | ileitman@gmail.com

PERSONAL QUALITIES

A self-learner with excellent coding and professional abilities
Highly motivated, eager to learn and to solve new challenges
Good human relations and proven teamwork skills
Independent, efficient, reliable, dynamic and creative

EDUCATION

2014-2018:

B.Sc. in Computer Engineering (Computer Science + Electrical Engineering)
Ben-Gurion University, Beer Sheva

- Certificate of Excellence in academic studies (2017)
- GPA: 85

2005-2008:

"Alon" High School, Ramat Hasharon

- Major in Computer Science, Physics and Mathematics

EXPERIENCE

03/2017-Present:

Kamidoo – first developer of an innovative startup developing a Text-to-Storytelling technology:

- Server-side developer (C#, Java) – design and implementation of major parts of backend platform architecture.
- Development of Text Analysis and NLP modules for understanding content.
- Implementation of web data crawling processes and adapters for 3rd parties' APIs and services.
- Working with DBs (relational and objects DBs).
- ML – development of core machine learning modules – data preparations & normalization, training, parameter tuning and connecting to production environment.
- Developed a learning mechanism for continuous model training, based on user's behavior.
- Client side – mainly JS (angular) and some UI tasks.
- Tests – unit & system tests – design, development and maintenance.

2018:

Mobile App and Server for the Ministry of Agriculture (Final Academic Project):

- Geolocation React-Native mobile app for managing and viewing trees data.
- Server-side (C#) – Image Recognition, PDF files creation & editing.
- Serverless crawlers for analyzing and collecting data from various web sources into one DB.

MILITARY SERVICE

12/2008-05/2013:

Intelligence officer, IDF Special Forces ("Sayeret Matkal")

- Qualified as officer at IDF officers' school.
- Responsible for field intelligence, which included, among others, collecting, analyzing and communicating the major intelligence information for the unit's complex military operations.
- Direct commander of a department of 25 soldiers.
- The position required high analysis skills, daily work under pressure, good management abilities and human relations. Worked closely with high ranking officers and professionals.
- Rank (reserve): Captain
